**GEORGE HERON;-** The Studio is the very first full script ever written by George and it came about after George reached the finals of the Sunday For Sammy scriptwriting competition back in 2020. Inspired by the success of his monologue *THAT'S LIFE IN A BLUE SUIT*, George sat down and created *THE STUDIO* which is loosely based on his experiences within the world of online broadcasting. Every character portrayed in *THE STUDIO* is based on an actual person and whilst he has used a touch of theatrical licence the characters are as close to the real thing as was possible without getting sued!

Many of the actors on stage on this production are acting before an audience for the very first time.

**With thanks to the Little Theatre, Cleadon for staging this play**
